

Viri Wash

PRODUCT TYPE	Pre-milking Teat Cleaner
APPLICATION	Viri Wash is a concentrated udder wipe product for use immediately before milking. It is suitable for all kinds of milking animals.
PROPERTIES	Viri Wash contains softening and other skin-care ingredients. The product effectively dissolves dirt and gently cleans the udder, reducing the risk of spreading bacteria and improving milking hygiene.
STORAGE	Keep in original container. Keep separate from food, feedstuffs, fertilisers and other sensitive material. Store above freezing. Storage: $0^{\circ}\text{C} \rightarrow 35^{\circ}\text{C}$ Durability: 24 months.
SAFETY	Please see the enclosed safety data sheet for information about handling and disposal. For professional users only.

INSTRUCTIONS AND DOSAGE

Use VIRI WASH in a solution of 0,5-1% (0.5-1 dl to 10 litres of water).
Use fresh, lukewarm water.

Viri Wash is suitable for use in foam cups or spraying equipment.
It should be applied to udders and teats before milking.
Allow the product to act until the dirt is dissolved.
Then wipe the udder with a clean, damp milking cloth.

PRODUCTDATA

Colour	Yellowish.
Physical state	Fluid.
Odour	No data recorded.
Bulk density	~ 1,05 kg/l
pH Concentrate	~ 5,5
